Workshop: Multivariate Splines for Inferential Data Science

07/05/2026

El Instituto de Matemáticas de la Universidad de Granada (IMAG) organiza el Workshop "Multivariate Splines for Inferential Data Science" del 10 al 16 de Mayo de 2026. Este evento congrega a numerosos investigadores de Universidades de prestigio internacionales.

The poster for BIRS - IMAG Workshops 2026 features a dark background with a faint image of a classical building. It lists two workshops: 'Multivariate Splines for Inferential Data Science' (May 10-16, 2026) and 'Geometric Harmonic Analysis in the Discrete and Continuous Settings' (June 7-13, 2026). Each workshop has a QR code and a list of organizers. The bottom of the poster includes logos for the University of Granada, IMAG, BIRS, and other sponsors.

BIRS - IMAG Workshops 2026

May 10, 2026 to May 16, 2026
Multivariate Splines for Inferential Data Science
Organizers: Tanya Sorokina (Towson University), John Braun (UBC), María José Ibáñez (University of Granada), Carla Mann (University of Rome Tor-Vergata) and Hiba Nassar (Technical University of Denmark).

June 7, 2026 to June 13, 2026
Geometric Harmonic Analysis in the Discrete and Continuous Settings
Organizers: María Carmen Reguera (University of Málaga), Odysseas Bakas (University of Patras), Ioannis Parisis (Ikerbasque research associate, and visiting professor, University of the Basque Country (UP/EHU)), Luz Roncal (Basque Center for Applied Mathematics - BCAM) and Brett Wick (Washington University in Saint Louis).
